ABOUT US

Chandler Automation is your “one stop shop” for all things factory automation in the food industry. Think of us as your dedicated planner when it comes to guiding you through the process. We know all the right vendors, get you the best quality and pricing. Our skillful project management, allows you to run your business, and not fuss with bids, multiple vendors or endless calls.

We can help upgrade a single area in your system, like a new metal detector or build a new factory from the cement to the product-filled pallet leaving the warehouse. We help create the right system for your product, volume, speed and space.

We have helped customers decrease their labor costs dramatically. Think 90 employees to 5 and 100 employees to 13. With social distancing protocols in a time when it's already so hard to find help, let alone good help, it's time to automate and alleviate the employee headaches. The Robots never complain!

It's time to automate. Ask us how!

You Need
Today!

SIMPLE

An application is the only requirement for up to \$1,000,000.

WHO QUALIFIES

From early stage businesses to Fortune 500.

LOW TO NO UPFRONT COSTS

Often no cash is required up front.

12 TO 60 MONTH TERMS

Provides you the terms you need.

CUSTOM QUOTES

Work with Chandler Automation to build the right solution.

100% FINANCING

Finance part or all equipment, including installation & training.

FINANCING OPTIONS

GO TO OUR WEBSITE

Complete a simple application to qualify today. www.chandler-automation.com/financing-options

Industry-Leading Finance Solutions

Whether you're interested in replacing an outdated piece of equipment, adding a new one, or upgrading your complete factory line from the ground up, look to Chandler Automation for a solution that's right for your business.

PAYMENT SOLUTIONS TO MEET YOUR NEEDS

- ♦ **STRUCTURE:** regular monthly, quarterly or semi-annual payments.
- ♦ **DEFER:** no payments for up to six months.
- ♦ **RAMP:** payments start low to match deployment and migration projects.
- ♦ **CUSTOM:** align payments with budget, cash flow and deployment.

BENEFITS OF FINANCING

SERVICE MEMBERSHIP

- ♦ Preventative Maintenance
- ♦ System Programing
- ♦ Training (Bi-Lingual)
- ♦ Service Repair
- ♦ Production Efficiencies
- ♦ Fine Tunning
- ♦ Parts Lists
- ♦ Manuals
- ♦ Software Support
- ♦ Online Support

SERVICE MEMBERSHIP PACKAGES

- ❑ **BRONZE:** Quarterly Service Program
4 days - 1 technician on-site (4 hour visits).
- ❑ **SILVER:** Bi-Monthly Service Program
6 days - 1 technician on-site (4 hour visits).
- ❑ **GOLD:** Monthly Service Program
12 days - 1 technician on-site (4 hour visits).
- ❑ **PLATINUM:** Twice Monthly Service Program
24 days - 1 technician on-site (4 hour visits).
- ❑ **DIAMOND:** Weekly Service Program
52 days - 1 technician on site (4 hour visits).

OUR SERVICES

Project Management

- Managing vendors for one point of contact & billing.
- Manage project planning and execution from beginning to end.
 - Initiation: Defining the project, setting goals, and determining feasibility.
 - Planning: Creating a detailed project plan outlining tasks, resources, timelines, and budgets.
 - Execution: Carrying out the project plan, coordinating resources, and managing tasks to meet objectives.
 - Monitoring and Controlling: Tracking progress, identifying issues, and making adjustments to ensure project stays on track.
 - Risk Management: Identifying potential risks, assessing their impact, and implementing strategies to mitigate them.
 - Communication: Facilitating effective communication among team members, stakeholders, and clients.
 - Quality Management: Ensuring deliverables meet quality standards and addressing any deviations.
 - Completion: Formalizing project completion, documenting lessons learned, and transitioning deliverables to stakeholders.
- Managing shipping, installation, commissioning and training.
- Keeping you informed every step of the way with a team mentality.

Preventative Maintenance

- Chandler Automation technicians at your facility as often as you need.
- Preventative maintenance planned ahead to keep your investments running smoothly.
- Available as an annual program billed monthly or quarterly.
- On-site or virtual support available to keep your facility running smoothly and efficiently.
- Remote programming of your equipment ensures timely attention to your needs.

Processing Layout (CAD)

- We can provide complete processing layout services specific to individual equipment and/or fully automated processing and packing lines.
- We work with you to identify your companies' needs and are able to layout a full factory line, or simply upgrade current processes.

Sales & Training

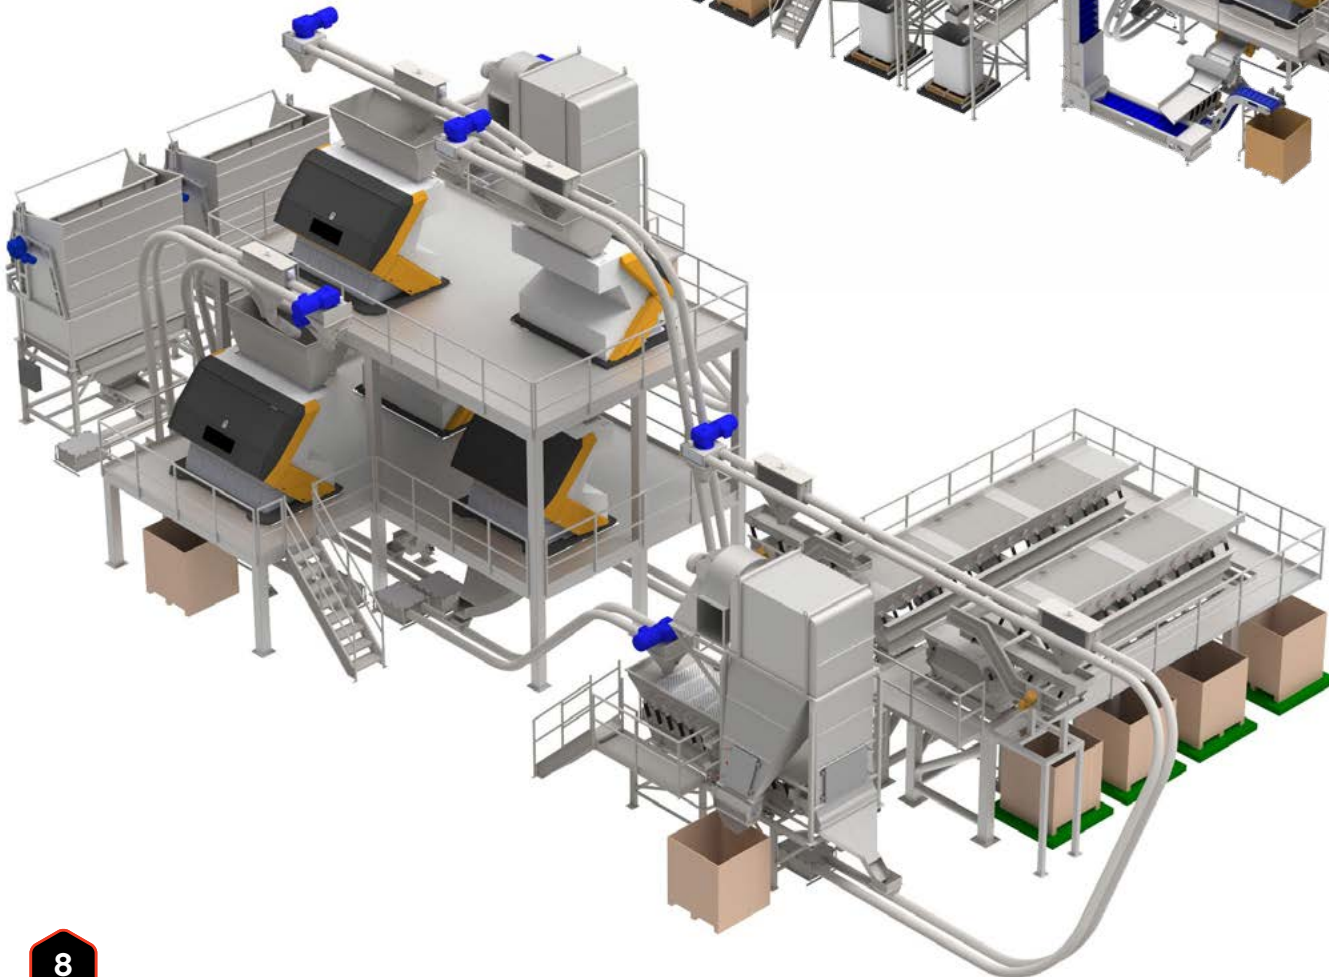

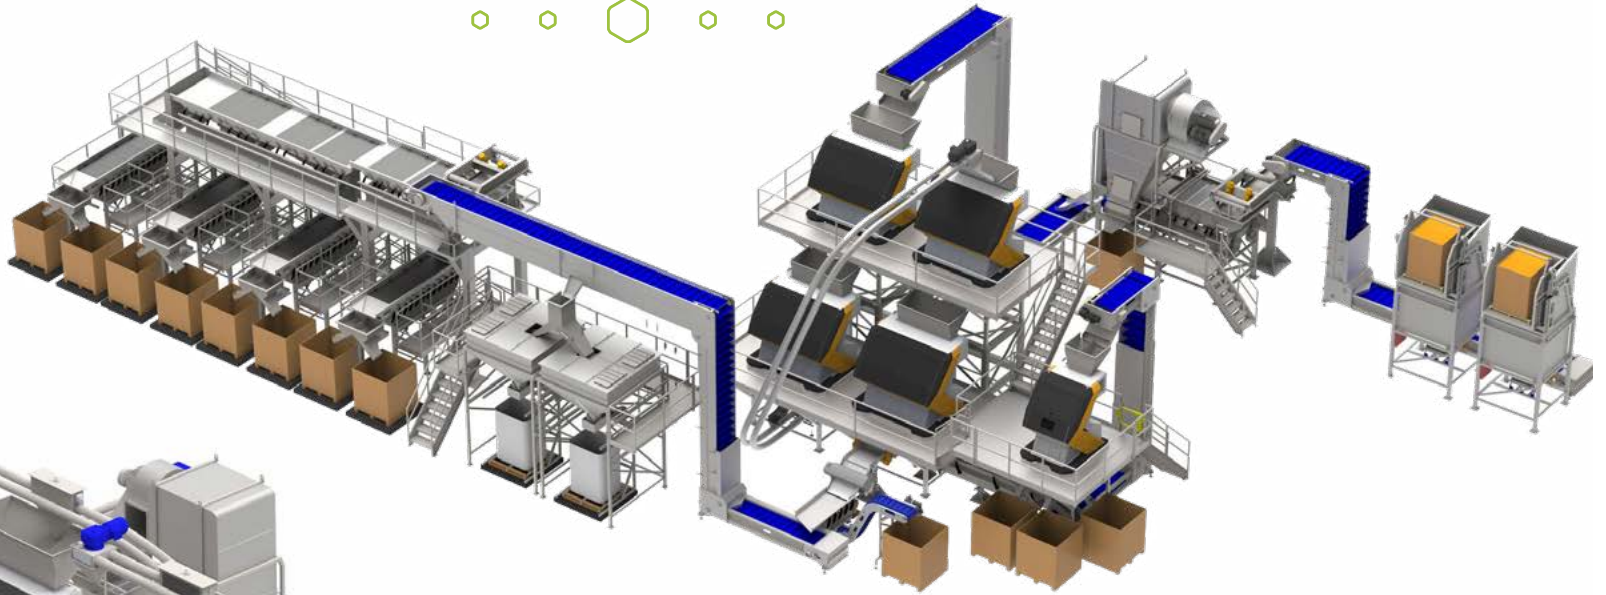

- We offer commissioning, programming and extensive training on everything you need for your next project.
- We take pride in offering the latest technology to the processing and packaging industry, so you can work ahead of your competition, while reducing production and employee costs.

Consulting

- From packaging to processing in your facility, we can help you develop a complete, end-to-end program to transform your operations. No project is too small.
- Our automation consultants will ensure that your equipment maximizes your competitive advantage and strengthens your business deliverables and goals.

Sorting' category

THE MOST POPULAR SORTER ON THE MARKET

Our exclusive optical sorting equipment uses a range of state-of-the-art technologies including cameras, lighting and machine learning software. It removes product defects and foreign materials by color, shape and texture.

Innovative features:

- Four wavelengths multi-spectral system, RGB and IR in the same 4K sensor.
- Simultaneous use of RGB, SWIR and IR optical systems: up to 8 frequencies.
- Flat spectrum led, allows detection of the slightest color variations.
- High resolution multi-spectral cameras, up to 4 wavelengths.
- Two 15" touchscreen displays.
- Morphological analysis of the product.
- Automatic air pressure regulator.
- Integrated remote-service system.

STRETCH WRAPPING MACHINERY

SOLUTIONS BY INDUSTRY

Phoenix Wrappers has been focused on serving the diverse pallet wrapping needs of a range of companies, distributions houses, bottlers or growers from a variety of industries. Our goal is to provide you with the most efficient, cost-effective pallet wrap machine or stretch wrap equipment to ensure that your loads are delivered safely and securely.

STRETCH WRAPPERS

Phoenix Wrappers is a leading manufacturer of stretch wrappers and stretch wrapping equipment with a full line of semi-automatic and high-speed, fully automatic stretch-wrap machines.

SAVING YOU MONEY

Considering that Phoenix stretch wrapping equipment offers more features per dollar than any competitor, combined with the high efficiency of our film delivery systems, Phoenix stretch packaging machines are your best value. You'll save money the day you purchase, and you'll save money by using less stretch film with every load you stretch wrap.

METAL DETECTION

- Reliably detects metals in packaged and unpackaged goods on conveyor belts.
- Very high sensitivity in dry, moist, salty, or frozen goods.
- Easy setup and intuitive operation due to auto-calibration and wizard guidance.
- Maintenance-free design with automatic and continuous calibration of detector coils.
- Compliant with food safety standards (IFS Food, HACCP, BRC).

X RAYS

- X-ray inspection for bulk materials in the food or non-food industry.
- Detects high density materials like metal, ceramic, stone or plastic.
- Easy operating with auto-calibration and clearly arranged functions on 17" touchscreen.
- XIA software for instant analysis and detection with high accuracy and reliability.
- Integrated rejection unit: Single or multi flap, as well as air gun option for particularly material-saving rejection of contaminants.

CHECK WEIGHING

- Check weigher for 500 ppm speed combined with high accuracy.
- Easy-to-use with settings for tare, nominal weight, upper and lower weight limits, TU2 and conveyor speed.
- PC based Windows™ operating system with options for wired or wireless data transfer.
- Production reports in Microsoft Excel™ or as Adobe PDF™.
- Controls up to four weighing units.

CHANDLER AUTOMATION GIVES BACK

VISIT OUR WEBSITE TO SEE ALL THE WAYS **CHANDLER AUTOMATION GIVES BACK**. HERE ARE A FEW HIGHLIGHTS:

Did you know we love the new organization **Women In Tree Nuts**? They are building women's community in the tree nut industry and we are here for it! Chandler Automation is a proud sponsor of many of their events throughout the year. Follow them on Instagram @womenintreenuts and get connected!

Chandler Automation is a passionate advocate and sponsor of many youth sports programs, including:

- **Live Oak Little League**, supporting its goal to foster sportsmanship, honesty, loyalty, courage, and respect in young players.
- **The Shoreline Surf Team**, helping kids and young teens learn the fundamentals of surfing, while fostering friendships and character building.
- **Santa Cruz Pop Warner**, teaches young kids the great game of football along with teamwork and personal integrity.

We proudly support the Soquel High School Knights, including:

- **JV and Varsity Football**, 2023 CIF Champions.
- **JV and Varsity Baseball**
- **Soquel High Fund**
- **Golf Team**
- **CTE Sustainable Agriculture Program**
